

HEALTH & SAFETY TRAINING

WORKFORCE SAFETY

In order to build a company with a strong safety culture, you must start with a well trained workforce. SMART Safety Group offers an array of health and safety training courses to ensure your company and workforce are fully compliant on every job.

Key questions to ask concerning safety training across your workforce and subcontractor base include:

1 *Have your employees been trained in the latest health and safety standards implemented by OSHA?*

2 *Do you have any contractors requiring health and safety training that you are not able to self-perform?*

SMART Safety Group can provide hundreds of training courses that increase workforce safety awareness, ensure OSHA compliance and build an effective safety culture.

OSHA COMPLIANCE

COST REDUCTION

SMART provides critical health & safety training courses to include:

- ▼ *Silica Training*
- ▼ *Forklift & Scissor Lift Qualification*
- ▼ *Fall Protection Competent Person*
- ▼ *OSHA 10 & 30 Hour Construction*
- ▼ *First Aid / AED / CPR*
- ▼ *Active Shooter Training*
