

SAFETY PROGRAM MANAGEMENT

Workforce Safety | OSHA Compliance | Cost Reduction

SMART Safety Group quickly elevates your company's safety performance, while lowering its operating costs through our comprehensive **Safety Program Management**. Our program reduces incidents and claims, ensures OSHA compliance, and fosters a **proactive and effective safety culture across your company's workforce**. SMART's Safety Program Management includes:

- Safety Policy Development
- Job Site Safety Audits
- 24/7 Safety Hotline
- Weekly Toolbox Topics
- Monthly Safety Reports
- 24/7 Incident Response
- Health & Safety Training
- Claims Management
- OSHA 300 Reporting
- OSHA Representation

SMART's highly qualified team of safety professionals has decades of experience providing the safety services you need, when needed – **at a fraction of the cost of in-house safety resources**.

At SMART, our safety services are delivered through a highly visible **"boots-on-the-ground"** approach. This visibility and engagement elevate workforce safety awareness, behavior, and culture across your organization.

SMART delivers **measurable results** through:

- Workforce Safety** – Lower incidents, injuries, and recordables
- OSHA Compliance** – Simplified regulatory reporting
- Operating Efficiency** – Improved workforce productivity, quality, and retention
- Business Performance** – Improved business efficiency, competitiveness, and profitability

Working with SMART Safety Group protects your **People, Property, and Profits** through expert guidance, training, and leadership on all health and safety issues. SMART Safety Group works **24/7/365** providing safety expertise across your operations.

US Sprinkler, Inc

John Dennis, President & CEO

"SMART Safety Group has helped manage my company's safety program for more than three years with excellent results. In a short period of time, we had a significant drop in our incidents and OSHA recordables. With the continued efforts by SMART and my employees, this last year we had a dramatic reduction in our Experience Modification Rate ("EMR") of more than 30%.

SMART's team and service has improved our workforce safety practices and behaviors, along with safety program documentation. As a business owner, workforce safety is a top priority and goal. I want each of my employees to return home safe every day. Working with the SMART team keeps me focused on achieving this goal. We value our partnership with SMART Safety Group and highly recommend this company and their services."
